THE BREATHTAKING EFFECT OF LEDS  
FLOATING IN THE GLASS

# HIGH-TECH LAMINATED GLASS WITH INTEGRATED LEDS

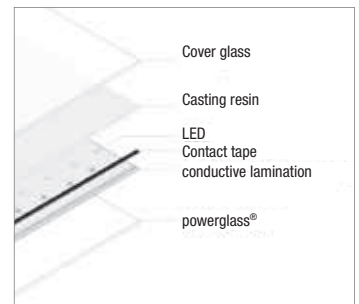

## Design

The POWERGLASS® is designed to create the perfect ambience. You can choose to fit the POWERGLASS® to the entire ERHARDT T roof or to individual panes – it's up to you. The bright LEDs shine like stars in the sky, so you can relax and enjoy those beautiful summer evenings.

## POWERGLASS®

The LEDs used in the POWERGLASS® are energy-efficient and only give off very small amounts of heat. The high-quality craftsmanship guarantees heat and UV resistance, and it is weatherproof in rain and snow. In daylight, the LEDs are almost invisible.

### All POWERGLASS® features

Maximum dimensions	Max. width: 750 mm x max. length: 3500 mm
Material	<ul style="list-style-type: none"> <li>» Only available with 10 mm LSG</li> <li>» Tested to LSG standard up to 106 kg/m<sup>2</sup> snow load</li> <li>» Laminate: protected in glass compound</li> </ul>
LEDs	<ul style="list-style-type: none"> <li>» LED colours: white (standard)</li> <li>» Energy-saving: low energy consumption thanks to LED technology</li> <li>» State-of-the-art technology: low heat generation and long service life</li> <li>» Almost invisible</li> </ul>
Special features	<ul style="list-style-type: none"> <li>» Easy to control with io</li> <li>» Weather-resistant: 100% weatherproof in rain and snow</li> <li>» Can be used inside, outside and in humid conditions</li> <li>» Glazed panel creates appearance of stars in the sky</li> <li>» Made in Germany</li> <li>» 10-year warranty</li> </ul>
